

**FORGOTTEN MELODIES:**

# Keep The Home Fires Burning

A New Musical featuring the songs of the Great War!

Marking 100 years since the guns fell silent!

**BASED ON REAL EVENTS** and told through the wonderful, heartbreaking, poignant songs that were forged on the battle field and came to signify this defining period in our history.

We follow the fortunes of three brave lads, as they travel to France to fight for King and Country, as well as the loyal and loving families they leave behind.

Whether in the trenches, marching or during the long periods of waiting between battles, soldiers would sing at any given opportunity, and this show discovers those songs that helped bring solidarity, strengthen morale and diminish fear.

Hear their own, often rather naughty, versions of popular songs, rewritten to challenge the establishment and express their feelings about life in such a hellish environment.

Join the national commemoration, in this special centenary year, right here in your local theatre!

The show is 100% live, featuring over 30 classic songs:

**Pack Up Your Troubles, Hush Here Comes a Whizzbang!  
Oh It's A Lovely War! It's a Long Way to Tipperary,  
Forward Joe Soap's Army, When This Rotten War Is Over,  
Keep The Home Fires Burning, Goodbyeee and Many More!**
